Re: APD's

Nine San Arroyo Wells (All Federal)

Grand County, UT

Dear Ms. Daniels:

Enclosed are complete copies of APD's filed with the Moab office of the BLM for Drilling Permits for the following Unit wells:

San Arroyo Unit #51 (Directional); All others, Vertical: San Arroyo Unit Nos. 52, 53, 54 (55) 56, 57, 58 and 59.

Please have a look and assign API numbers. If you have questions, or need further information, please call.

Very truly yours,

J. N. Burkhalter, PE

Ms. Diana Whitney Division of Oil, Gas & Mining P.O. Box 145801 Salt Lake City, UT 84114-5801

Re: APD's

Exception Locations SA Unit Nos. 53, 54, 55, 56, 58 and 59 Grand County, UT

Dear Ms. Whitney:

The referenced locations are an exception to Rule R649-3-3 due to topography. All the leases are 100% owned and 100% operated within 460' of each location by Crescendo Energy, LLC. No other owners or operators are involved.

These locations were chosen in an attempt to drill a viable down-hole location and because of the rough topography in the San Arroyo area. Much work and planning has gone into these locations, first to drill a down-hole location with a good chance of economical production, then an attempt to match it with an acceptable and buildable location.

Please call if you have other concerns.

Very truly yours,

//J. N. Burkhalter. PE

cc: Jim Osbome

SAN ARROYO UNIT #55

FEDERAL LEASE

1. DRILLING PLAN

- a. Name of Well: San Arroyo Unit #55
- b. Surface Location of Well: 2192 FNL, 1984 FWL, Sec 25, T16S, R25E, SLM Grand County, Utah
- c. Federal Lease No. UTU-0369
- d. Ungraded ground elevation: 6035' above sea level
- e. The surface formation: Cretaceous Mesa Verde
- f. **Drilling Equipment:** Rotary drilling equipment will be used to drill the well to a TD of 5200' TVD and run casing. Standard 9" 3000 lb BOP double ram stack will be employed. A completion rig will be employed to complete the well.
- g. The Total Depth of the well is planned to be 4900'.
- h. Tops of Geologic Markers:

Surface: Mesa Verde Formation
Castle Gate 600
Dakota 4160
Cedar Mountain 4280
Morrison 4410
Total Depth 4900

i. Estimated depths of fluid-bearing formations:

Castle Gate: gas/water 600 Dakota: gas/water 4160

Cedar Mountain: gas/water 4280

Morrison: gas/water 4410

j. The primary geologic objective is:

Morrison: 4410 to 4900

k. Casing:

Surface: A 12 1/4" surface hole will be drilled to 250' and 8 5/8" 36 lb new J55, API 8rnd ST&C csg will be run to 250' and cemented to surface with 150 sx regular cement mixed as follows: Class "G" (regular) cement containing 2% CaCl, 1/8 lb/sk Floseal, density 15.6 lb/gal, yield 1.18 cuft/sk. Cement will circulate.

Page 2 Drilling Plan

Well: San Arroyo Unit #55

Intermediate: An 8 3/4" hole will be drilled through Castlegate to approximately 750' depending on geology and 7" 23 lb new J55, API 8rnd ST&C csg will be run and cemented with 60 sx Halliburton Light Cement containing 23.5 lb/sk Class "G" cement, 52.375 lb/sk Poz, 7.64 lb/sk Lime, 6.11 lb/sk Gel, 0.25 lb/sk poly-e-flake. Slurry weight 11.00 lb/gal, yield 2.73 cuft/sk. Cement to surface.

Production: A 6 1/2" hole will be drilled to projected depth of 4900'± depending on geology, and 4 ½" 11.6 lb new J55 API 8rnd ST&C csg will be run to TD and cemented with 125 sx thixotropic cement comprised of Class "G" (regular) cement containing 10.0 lb/sk Calseal, 0.2 lb/sk Halad 344, 5 lb/sk gilsonite, density 14.2 lb/gal, yield 1.44 cuft/sk to cover all possible porous zones with a minimum of 200' of cement.

- I. **Pressure Control:** A standard 9" 3000 lb double ram BOP will be flanged up and tested initially and monthly thereafter to TD. Rams will be operated during trips.
- m. **Mud Program:** Fresh gel mud consisting of native clays, fresh water and bentonite will be used for the surface hole. Mud with at least 2% KCl (potassium chloride) will be used for the intermediate and production holes.
- n. Testing, Logging and Coring Programs:

<u>Testing</u>: If returns indicate the need for a DST, testers will be called. <u>Mud Logging</u>: A mud logging unit will be employed from 100' above the Castlegate.

Open Hole Logging: Electric and porosity logs will be run in open hole after intermediate casing depth is reached and after TD is reached.

<u>Cased Hole Logging:</u> A Gamma ray correlation and cement bond log will be run prior to perforating in cased hole.

Coring Program: No coring is planned for this well.

- o. **No abnormal pressures** or H₂S is anticipated in this well. Bottom Hole Pressure is estimated to be 1800 psi.
- p. **Anticipated spud date** is May 1, 2005. Drilling time will be approximately three weeks from spud to move off of the drilling rig.
- 2. **BOP TEST PROCEDURES:** Immediately after nippling up the double ram BOP to the surface pipe, professional testers will be called to the location and BOP tested to 2500 psi, both sets of rams and flanges.

3. MULTI-POINT SURFACE USE PLAN (13-Point Plan)

a. **The land survey** for the location was performed by LANDesign of Grand Junction, Colorado. Cultural resources were cleared by Mike Piontkowski of Uncompangre Archaeological Consultants, Grand Junction, CO.

Page 3 Drill Plan San Arroyo Unit #55

- b. (See Map) To reach the location from Mack, CO, proceed westerly on old Hwy 6 approximately 10.0 miles to San Arroyo Road, turn right (north), stay on main traveled road for approximately 4 mi to Colo/Utah state line. Go through gate and immediately turn right (north) and follow state line fence for approx 4.7 mi (last 2 mi road veers somewhat away from fence), then main road bears northwest and into Bar X Wash Canyon for another 3.0 mi to Gov't San Arroyo #4 Well. Turn left onto road to SA #21. Access Road begins at SA #21.
- c. Access Road: See Map. Approximately 3500' of Access Road will be required for this well.
- d. **Planned Access Road:** Approximately 3500' of Access road is planned for this location. The Access road will follow the terrain to the location with no grades over 8%. Access Road will begin at SA #21.
- e. Wells within a one-mile radius of proposed well:
- 1) There are no known water wells within the one-mile radius.
- 2) There are two (2) known P&A well within the one-mile radius. NWNW Sec 30, T16S, R26E, SLM SESW Sec 24, T16S, R25E, SLM
- 3) There are no known salt water disposal wells in the one-mile radius
- 4) There are nine (9) known producing wells in the one-mile radius:

SESWSW Sec 33, T16S, R25E, SLM

NESENW Sec 26(2Wells), T16S, R25E, SLM

NESENE Sec 26, T16S, R25E, SLM

NWSESW Sec 24, T16S, R25E, SLM

E2NWNW Sec 30, T16S, R26E, SLM

NWNENE Sec 36, T16S, R25E, SLM

NWSE Sec 25(2 Wells), T16S, R26E, SLM

- 5) There are no known currently permitted wells in the one-mile radius.
- 6) There are no known monitoring wells in the one-mile radius
- f. **Production facilities** such as separators, dehydrators, flow meters and tanks will be located on the disturbed portion of the well pad. If gravel is needed for foundation under tanks or gas processing equipment, it will be hauled in. All other material will be obtained from the site such as dirt for the dikes around tanks.
- g. Above ground structures will be painted according to BLM selected colors. BLM states colors will be selected at onsite and included in stipulations with permit.
- h. Reserve Pit: Will be fenced on three sides during drilling. After the drilling rig is moved out, Reserve Pit will be fenced on fourth side and fence maintained for the life of the pit until final reclamation.

Page 4 Drill Plan San Arroyo Unit #55

- i. Tanks or Tank Batteries: A tank or tank battery will be surrounded by an impervious dike of sufficient size and height to contain 110% of the largest tank in the battery.
- j. If any oil/liquid hydrocarbons resulting from drilling or completion end up in the pit, the pit will be flagged/netted.
- k. Off-Site Facilities: No off-drill pad facilities are anticipated for the well. Condensate will be stored on the drill pad and gas piped off to the sales pipeline nearby.
- I. **Proposed Pipeline Facilities:** The Sales Gas line will be installed to the east, staying on the Access Road and hook up to existing pipeline in Sec 22. After completion and testing, a Sundry Notice will be filed describing the pipeline needed to produce this well.
- m. Location and Type of Water Supply: Water for mixing drilling mud and cement will be trucked from the Ute Water facility at Mack, CO, approximately 30 miles from the location. Ute water is purified domestic water and will not cause any deleterious affects to the environment. Water will be bought under Ute Water Permit No. B004.
- n. **Source of Construction Materials:** No material will be removed from Federally owned sources. If gravel is needed for foundation under production facilities, there are several commercial gravel pits in the area. The dike around the tank will be constructed from dirt found on the location.
- o. **Methods of handling waste disposal:** Design of pit and its usage. Sewage disposal. Garbage and trash handling.
 - A. The reserve pit will be designed to prevent the collection of surface runoff. The pit will be lined with a 12-mil or thicker polyethylene to prevent leakage of fluids. The liner will be rolled in place and recurred at the ends, i.e. buried on the top of the pit berms. Prior to use, the reserve pit will fenced "stock tight" on three sides, the fourth side will be fenced at the time of rig release and removal, at which time the pit will be flagged. Drilling fluids and cuttings will be constrained in the reserve pit.

Fluids in the reserve pit will be allowed to evaporate prior to being backfilled. Pit will remain fenced until backfilled.

- B. Produced liquid hydrocarbons will be constrained in test tank(s) during completion and testing.
- C. Sewage will be handled in self-contained, chemically treated portable toilets and contents hauled off location to an authorized facility in accordance with State and local regulations.

Page 5 Drill Plan San Arroyo Unit #55

- D. Garbage and other trash will be contained in an acceptable trash receptacle, which will be enclosed. Refuse will be transported to an approved sanitary landfill upon completion of operations.
- E. Trash will be picked up if scattered and contained in receptacles during drilling/completion/construction operations.
- p. Ancillary Facilities: None Required.
- q. Well site layout including plats, cuts, fills, cross sections, parking for vehicles, top soil storage, location of pits including reserve pit, erosion control.
 - A. See Survey Plats.
 - B. Cut and fill cross sections indicated on survey exhibits. Sufficient material will be available to backfill the reserve pit after drilling and completion activities.
 - C. All equipment will be confined to the access road, pad and areas specified in the APD.
 - D. Prior to construction, all topsoil will be removed from the entire site and stockpiled as directed by the BLM during the onsite. Topsoil will be stripped to a depth of 6 to 8 inches where possible.
 - E. Soil material and overburden will not be pushed over side slopes or into drainages. All soil material disturbed will be placed in an area where it can be retrieved.
 - F. The location (including reserve pit) will be designed to prevent the collection of surface runoff.
 - G. Adequate erosion control barriers will be installed at the drill pad to minimize storm water runoff. Water drainage upslope from the drill pad will be addressed at the time of construction to keep it from ponding on the pad.

r. Surface Reclamation Plans:

- A. Rat and mouse holes will be backfilled and compacted from bottom to top immediately upon release of the drilling rig from the location.
- B. Backfilling of the pit will be done when the contents have been sufficiently dewatered.
- C. Production Operations:
 - a. If the well is productive, areas not required for operations will be contoured and water barred to support vegetation and reduce erosion. All disturbed areas will be seeded with seed mixture prescribed by BLM. Seeding will be done after September 15th and/or prior to ground frost or seed will be planted after the last frost and before May 15th. Slopes too steep for machinery will be hand broadcast and raked with twice the specified amount of seed.
 - b. Noxious weeds will be controlled on the location in accordance with BLM guidelines.

Page 6 Drill Plan San Arroyo Unit #55

> c. Rehabilitation will begin upon the completion of the well. Complete rehabilitation will depend on weather conditions and the amount of time required to sufficiently dewater the reserve pit.

s. Abandoned Well Plans:

- A. In the event of a dry hole, the location will be re-contoured, the top soil will be distributed evenly over the entire location. The seed bed will be prepared by disking to a depth of four(4) to six(6) inches following the contour. Seed will be drilled on the contour to a depth of 0.5 inches, followed by cultipaction to compact the seed bed, preventing soil loss. Certified seed will be used with a minimum germination rate of 80% and minimum purity of 90%.
- B. Water bars, either for a producing well or a dry hole, will be constructed at least one(1) foot deep on the contour with approximately two(2) feet of drop per 100 feet of waterbed to ensure drainage and extend into established vegetation. All water bars will be constructed with berm on the downhill side to prevent erosion from occurring and sitting in the trench.

Water bar spacing on the location will be as follows:

% Slope	Spacing Interval
2 or <	200'
2 to 4	100'
4 or 5	75'
5 or >	50'

C. Notice of Intent to Abandon and Subsequent Report of Abandonment will be submitted for approval.

t. Surface Ownership and ROW Ownership:

Surface Ownership: U.S. Department of Interior, Bureau of Land Management

ROW Ownership: U.S. Department of Interior, Bureau of Land Management

u. Other:

A. Cultural Resource Inventory: A Class III Cultural Resource Inventory has been conducted by Mike Piontkowski of Uncompangre Archaeological Consultants.

The survey finding was that <u>no cultural resources were found on or near</u> the location.

- B. Surface use of Area: Surface use of area is for grazing livestock and production of oil & gas.
- C. Fire Suppression: Operator will be responsible for the prevention and suppression of fires on public lands caused by its employees, contractors, or subcontractors.

Page 7
Drill Plan
San Arroyo Unit #55

D. Hazmat: Operator maintains a file, per 29 CFR 1910.1200 (g) containing current Material Safety Data Sheets (MSDS) for all chemicals, compounds and/or substances which are used during the course of construction, drilling, completion and production operations for this project. Hazardous materials (substances) which may be transported across these lands may include drilling mud, cementing products which are primarily inhalation hazards, fuels (flammable and/or combustible), materials that may be necessary for well completion/stimulation activities such as flammable or Combustible products and acids/gels (corrosives).

The opportunity for Superfund Amendments and Reauthorization ACT (SARA) listed Extremely Hazardous Substances (EHS) at the site is generally limited to proprietary treating chemicals. All hazardous substances, EHS, and commercial preparations will be handled in an appropriate manner to minimize the potential for leaks or spills to the environment.

u. Operators Representative and Address and a Certification:

J. N. Burkhalter
Consulting Engineer/Agent for
Crescendo Energy, LLC
P.O. Box 60095
Grand Junction, CO 81506
Office: 970-243-6060; Cell: 970-260-0765

CERTIFIFCATION: All lease and/or unit operations will be conducted in such a manner that full compliance is made with all applicable laws, regulations, Onshore Oil and Gas Orders, the approved Plan of Operations, and any applicable Notice to Lessees.

Crescendo Energy, LLC is considered to be the operator of the subject well. Crescendo Energy, LLC agrees to be responsible under terms and conditions of the lease for the operations conducted upon leased lands.

The Operator will be fully responsible for the actions of its subcontractors. A complete copy of the approved "Application for Permit to Drill" will be furnished to the field representative(s) to ensure compliance and shall be on location during all construction and drilling operations.

Bond coverage pursuant to 43 CFR 3104 for lease activities is being provided by BLM Utah Statewide Bond No. 0437483.

Page 8 Drill Plan San Arroyo Unit #55

I hereby certify that I, or persons under my supervision, have inspected the proposed drill site and access route, that I am familiar with the conditions that currently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and the work associated with the operations proposed herein will be performed by Operator, its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved.

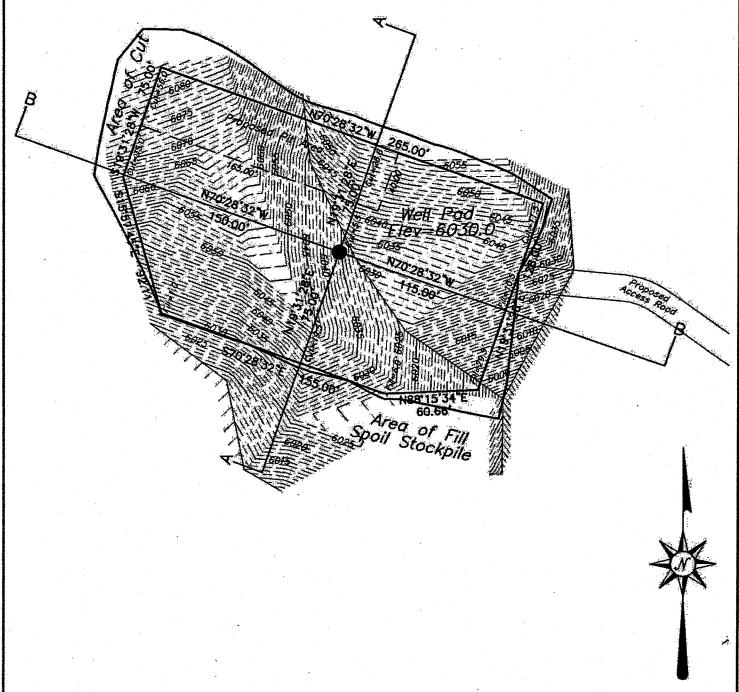

12/22/04.

Re:

San Arroyo Unit #55 Well, 2192' FNL, 1984' FWL, SE NW, Sec. 25,

T. 16 South, R. 25 East, Grand County, Utah

Gentlemen:

Pursuant to the provisions and requirements of Utah Code Ann.§ 40-6-1 et seq., Utah Administrative Code R649-3-1 et seq., and the attached Conditions of Approval, approval to drill the referenced well is granted.

Appropriate information has been submitted to DOGM and administrative approval of the requested exception location is hereby granted.

This approval shall expire one year from the above date unless substantial and continuous operation is underway, or a request for extension is made prior to the expiration date. The API identification number assigned to this well is 43-019-31430.

Sincerely,

John R. Baza Associate Director

Conditions of Approval

1. General

Compliance with the requirements of Utah Admin. R. 649-1 et seq., the Oil and Gas Conservation General Rules, and the applicable terms and provisions of the approved Application for permit to drill.

2. Notification Requirements

Notify the Division within 24 hours of spudding the well.

• Contact Carol Daniels at (801) 538-5284.

Notify the Division prior to commencing operations to plug and abandon the well.

Contact Dan Jarvis at (801) 538-5338

3. Reporting Requirements

All required reports, forms and submittals will be promptly filed with the Division, including but not limited to the Entity Action Form (Form 6), Report of Water Encountered During Drilling (Form 7), Weekly Progress Reports for drilling and completion operations, and Sundry Notices and Reports on Wells requesting approval of change of plans or other operational actions.

- 4. State approval of this well does not supersede the required federal approval, which must be obtained prior to drilling.
- 5. This proposed well is located in an area for which drilling units (well spacing patterns) have not been established through an order of the Board of Oil, Gas and Mining (the "Board"). In order to avoid the possibility of waste or injury to correlative rights, the operator is requested, once the well has been drilled, completed, and has produced, to analyze geological and engineering data generated therefrom, as well as any similar data from surrounding areas if available. As soon as is practicable after completion of its analysis, and if the analysis suggests an area larger than the quarter-quarter section upon which the well is located is being drained, the operator is requested to seek an appropriate order from the Board establishing drilling and spacing units in conformance with such analysis by filing a Request for Agency Action with the Board.

DEPARTMENT OF NATURAL RESOURCES DIVISION OF OIL, GAS AND MINING

Request to Transfer Application or Permit to Drill

(This form should accompany a Sundry Notice, Form 9, requesting APD transfer)

Well name:	San Arroyo Unit #55		
API number:	4301931430		
Location:	Qtr-Qtr: SENW Section: 25	Township: 16S	Range: 25E
Company that filed original application:	Crescendo Energy, LLC		
Date original permit was issued:	01/05/2005		
Company that permit was issued to:	Crescendo Energy, LLC		

Check one	Desired Action:
	Transfer and the American American for Pormit to Drill to now operator
	Transfer pending (unapproved) Application for Permit to Drill to new operator
	The undersigned as owner with legal rights to drill on the property, hereby verifies that the information as submitted in the pending Application for Permit to Drill, remains valid and does not require revision. The new owner of the application accepts and agrees to the information and procedures as stated in the application.
1	Transfer approved Application for Permit to Drill to new operator
	The undersigned as owner with legal rights to drill on the property as permitted, hereby verifies that the information as submitted in the previously approved application to drill, remains valid and does not require revision.

Following is a checklist of some items related to the application, which should be verified.	Yes	No
If located on private land, has the ownership changed?		
If so, has the surface agreement been updated?		
Have any wells been drilled in the vicinity of the proposed well which would affect the spacing or siting requirements for this location?		1
Have there been any unit or other agreements put in place that could affect the permitting or operation of this proposed well?		1
Have there been any changes to the access route including ownership or right-of-way, which could affect the proposed location?		1
Has the approved source of water for drilling changed?		✓
Have there been any physical changes to the surface location or access route which will require a change in plans from what was discussed at the onsite evaluation?		1
Is bonding still in place, which covers this proposed well? Bond No. B001762	√	

Any desired or necessary changes to either a pending or approved Application for Permit to Drill that is being transferred, should be filed on a Sundry Notice, Form 9, or amended Application for Permit to Drill, Form 3, as appropriate, with necessary supporting information as required.

CERTIFICATE OF MERGER of CRESCENDO ENERGY, LLC into SLATE RIVER RESOURCES, LLC

This CERTIFICATE OF MERGER, dated and effective as of October 31, 2005, has been duly authorized and is filed pursuant to Section 18-209 of the Delaware Limited Liability Company Act (the "Act").

1. The name and jurisdiction of formation or organization of the constituent entities of the merger effectuated hereby are:

Name Jurisdiction of Organization
Slate River Resources, LLC Delaware

Slate River Resources, LLC Delaware Crescendo Energy, LLC Delaware

- 2. An Agreement and Plan of Merger (the "Merger Agreement") has been duly authorized, approved and executed by each of the limited liability companies to merge pursuant hereto.
- 3. Slate River Resources, LLC shall be the surviving entity and shall maintain its present name.
- 4. There are no amendments to the certificate of formation of Slate River Resources, LLC resulting from or incidental to the merger.
- 5. The merger effected hereby shall be effective upon the filing of this Certificate of Merger in the office of the Secretary of State of the State of Delaware.
- 6. The Merger Agreement is on file in the principal business office of the surviving entity, Slate River Resources, LLC, which is located at 1600 Broadway, Suite 900, Denver, Colorado 80202.
- 7. The Merger Agreement will be furnished by Slate River Resources, LLC, or its authorized representative, free of cost, to any member of, or any person holding an interest in, any entity to be merged pursuant hereto.

IN WITNESS WHEREOF, Slate River Resources, LLC, the surviving entity, has caused this Certificate of Merger to be executed by an authorized officer as of the date first written above.

SLATE RIVER RESOURCES, LLC

By:

Carter G. Mathies

Chief Executive Officer

SLATE RIVER HOLDINGS, LLC UNANIMOUS WRITTEN CONSENT OF THE BOARD OF DIRECTORS IN LIEU OF A SPECIAL MEETING

The undersigned, being all of the Members of the Board of Directors of Slate River Holdings, LLC, a Delaware limited liability company (the "Company"), hereby adopt, by unanimous written consent, in accordance with the Delaware Limited Liability Company Act, the following resolutions with the same force and effect as if they had been adopted at a duly convened meeting of the Board:

WHEREAS, the Company previously acquired all of the outstanding equity and ownership interests in Crescendo Resources, LLC ("Crescendo Resources"); and

WHEREAS, thereafter, the Company consolidated all of the wholly-owned subsidiaries of Crescendo Resources, namely, Crescendo Energy, LLC ("Crescendo Energy") and Entrada Energy Ventures, LLC ("Entrada") (collectively, Crescendo Resources, Crescendo Energy and Entrada are referred to herein as the ("Crescendo Entities") into Crescendo Energy; and

WHEREAS, the material assets and operations of all of the Crescendo Entities are held by Crescendo Energy; and

WHEREAS, Slate River Resources, LLC ("Slate River Resources"), a wholly-owned subsidiary of the Company, is intended to be the operating entity for all of the Company's business activities; and

WHEREAS, the Company has determined that it is in the Company's best interest to operate all of its business activities as a single entity and therefore to merge Crescendo Energy into Slate River Resources, with Slate River Resources being the surviving entity.

NOW, THEREFORE, BE IT:

RESOLVED, that the Company hereby is authorized to direct its legal counsel to effectuate the merger of the Crescendo Energy into Slate River Resources, with Slate River Resources as the surviving entity, to be effective on October 31, 2005; and be it further

RESOLVED, that the Company, and any Authorized Officer (as defined below) on behalf of the Company, hereby is authorized to undertake and perform all other acts, transactions or agreements that are necessary, appropriate, desirable or contemplated by the foregoing Resolutions; and be it further

RESOLVED, that all of the acts, transactions, or agreements taken in connection with the foregoing Resolutions hereby are ratified and approved in all respects, and the chief executive officer, chief operating officer, chief financial officer, president, vice president and secretary of the Company, as applicable, (collectively, the "Authorized Officers" and each individually, an "Authorized Officer") hereby are severally authorized and directed, in the name and on behalf of the Company to negotiate, execute and deliver such instruments, documents, agreements and writings of every kind and character, together with such changes, modifications, additions and deletions as to any or all of the terms and provisions thereof as the Authorized Officer executing such instruments, documents, agreements and

writings shall deem proper (such execution by such Authorized Officer to be conclusive evidence that such Authorized Officer deems all of the terms and provisions thereof to be proper), and to make such attestations to any signatures of officers of the Company, and to do and perform or cause to be done and performed all such other acts as each Authorized Officer shall from time to time deem necessary, advisable or appropriate in order to consummate the acts, transactions, or agreements contemplated by or described in the foregoing Resolutions; and be it further

RESOLVED, that the Authorized Officers hereby are severally authorized to execute on behalf of the Company from time to time, amendments or supplements to any of the documents related to or contemplated by the foregoing Resolutions as the Authorized Officer or Authorized Officers executing and delivering the same may in his, her, or their sole and absolute discretion deem appropriate to carry out the purpose and intent of the foregoing Resolutions (such execution by such Authorized Officer or Authorized Officers to be conclusive evidence that such Authorized Officer or Authorized Officers deems all of the terms and provisions thereof to be proper); and be it further

RESOLVED, that all acts, transactions, or agreements undertaken prior to the adoption of these Resolutions by any of the officers or representatives of the Company in connection with the foregoing matters hereby are ratified, confirmed and adopted by the Board; and be it further

RESOLVED, that any Authorized Officer hereby is authorized and directed to certify these Resolutions; and be it further

RESOLVED, that the Authorized Officers (together with such other officers and employees of the Company under their supervision as any of them shall direct) hereby are severally authorized and directed in the name and on behalf of the Company to do or cause to be done any and all further acts and things that they may from time to time deem necessary, advisable or appropriate to carry out the purpose and intent of the foregoing Resolutions.

January 31, 2006

Ginger Stringham Slate River Resources, LLC 418 Main St, Suite 18 Vernal, Utah 84078

Re: APD Rescinded -San Arroyo Unit #55 Sec. 25, T. 16S R. 25E

Grand County, Utah API No. 43-019-31430

Dear Ms. Stringham:

The Application for Permit to Drill (APD) for the subject well was approved by the Division of Oil, Gas and Mining (Division) on January 5, 2005. On January 30, 2006 you requested that the division rescind the state approved APD.

No drilling activity at this location has been reported to the division. Therefore, approval to drill the well is hereby rescinded, effective January 30, 2006.

A new APD must be filed with this office for approval <u>prior</u> to the commencement of any future work on the subject location.

If any previously unreported operations have been performed on this well location, it is imperative that you notify the Division immediately.

Sincerely,

Diana Whitney

Engineering Technician
